4)A random civilian every week will take the 4th spot to add spice to the show and an everyday opinion on topics.

Americas Top Gamers: Americas Top Gamers (ATG) is a tournament based TV Show where gaming organizations like MoB Gaming, vVv Gaming and Pure Talent will compete in several different games on the Xbox 360 console while the matches are streamed live to the internet for viewers to watch.

The reason ATG can be successful is because there is really no where gamers can go on the internet and watch this level of competition between pro gamers. Typically, a gamer would have to attend a LAN event to even get to watch these matches at all.

ATG will begin as an internet show and grow quickly into a TV show where we will restructure the show to accommodate a larger audience of attendants. At first, only large gaming crews will be competing, but hopefully in the near future we will allow teams from all over the world to try out live on a show much like contestants do on American Idol. Funding for the show will come from the owners and sponsors.

The most important thing to ATG is that we gain a following of gamers who love to watch high level of competition on the net or on the TV.

Our show will be marketed toward the gaming industry, mostly ranging from the ages of 14 to 21.

ATG will be successful due to the staff on hand. Staff consist of gamers number 1, business men who have started companies in the past and been successful with them. We also have experience with tournaments and ladder systems and how they work. We have a huge fan base already and the show has not even started yet. We have relationships with good sponsors and are networked very well in the pro gaming industry. ATG is a partnership between the owners and might become a LLC in the future.

Products and Services

ATG First Season is set up as follows:

We will have 8 gaming organizations entering the show at 100 dollars per organization. All entry fees will go to winning crew.

We will offer 4 games in the show. The list to choose from is Cod 4, Cod WaW, Halo 3, R6V2 and GoW 2.

Each crew will enter a team into each game and can use the same team in two separate games if they so wish. Players on one team can also play on another team.

The show will air live four nights a week or possibly two nights a week. If we go to four nights a week, we will only play one match a night. So we would do 4 matches a week in 4 different games. If we go to two nights a week, we will do 2 matches per night in 2 separate games.

Points are awarded to the teams depending on how far they make it in the tournament and then a total is given to the crew (consisting of all teams) to determine a winning crew / organization. If there is a tie, we will stream live a play off between all 4 teams for the win.

The winning crew will receive all entry fees paid in plus prizes; second place crew will receive prizes only.
